Selected Papers from IMETI 2022

Message from the Guest Editors

The 11th International Multi-Conference on Engineering and Technology Innovation (IMETI 2022) will be held in Kaohsiung, Taiwan, 28 October–1 November 2022. It aims to bring together engineering technology expertise. Professionals from industry, academia, and the government with interests in the discourse on research and development, professional practice, and business, as well as those who manage science and engineering fields, are welcome to attend the event. IMETI2022 consists of four sub-conferences (ICATI 2022, ICBEI 2022, ICSI2022, and ICECEI 2022) and more than 30 regular and special sessions (<http://imeti.org/IMETI2022/>). The main goal of this Special Issue, “Selected Papers from IMETI 2022”, is to present the latest advances in research and novel applications of sensor technologies and methods, sensor networks, materials for sensors, etc.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
