

Special Issue

Selected Papers from the International Microwave and Optoelectronics Conference-IMOC 2019

Message from the Guest Editors

This Special Issue is being published in cooperation with IMOC 2019. The authors of outstanding papers related to sensors presented at the conference are invited to submit extended versions of their work to this Special Issue for publication. The IMOC 2019 event aims for scientific and technological exchange, and will feature a comprehensive Technical Program. The conference topics of interest include (but are not limited to) all aspects related to the use of radio/microwave and photonic/optics in the following tracks, covering both theoretical and practical aspects:

- Circuits, systems, and networks;
- Fundamental effects, devices, and components;
- Field trial and applications: 5G; Internet of Things/cyber physical systems, energy, satellites.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
