

Special Issue

Intelligent Systems for Fault Diagnosis and Prognosis

Message from the Guest Editors

The Special Issue “Intelligent Systems for Fault Diagnosis and Prognosis” aims to collect the state of the art of research in data-driven diagnosis and prognosis for machine faults, ranging from fundamental studies to practical applications. The Special Issue will include, but is not limited to, the following topics:

- Sensors and data collection;
- Data quality management and data processing;
- Feature extraction and fault classification for condition monitoring;
- Machine learning and deep learning algorithms;
- Transfer-learning-based methods for prognostics;
- Reinforcement-learning-based methods for predictive health management;
- Hybrid models of data-driven and model-based approaches;
- Uncertainty analysis for prognostics;
- Novel system structures for predictive maintenance;
- Other PHM applications.

Guest Editors

Dr. Yong Oh Lee

Korea Institute of Science and Technology Europe FmbH , Campus E7 1,
66123 Saarbrücken, Germany

Dr. Mayank Jha

Research Centre for Automatic Control in Nancy, University of Lorraine,
34 Cours Léopold, 54000 Nancy, France

Deadline for manuscript submissions

closed (31 July 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
