

# Special Issue

## ISEF 2019

### Message from the Guest Editor

This Special Issue will be based on the 19th International Symposium on Electromagnetic Fields in Mechatronics and Electrical and Electronic Engineering held in Nancy, France, 2019. ISEF 2019 will bring together the international community of researchers, engineers, and designers engaged in methods and techniques for computation, modelling, simulation, measurements, and the application of electromagnetic fields. This Special Issue will be mainly devoted to the application of these new solutions and computational methods in improving existing solutions and searching for new ones in the areas of sensors and transducers.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
