

Special Issue

Applications of Manufacturing and Measurement Sensors

Message from the Guest Editors

Measurement sensors are an essential technology in advanced manufacturing, with substantial significance in the context of the engineering field. With tighter tolerance and higher performance standards, there is a need to develop fast and efficient applications of manufacturing and measurement sensors to satisfy the specifications of various products' functional attributes. As one of the experts in the field, I would like to cordially invite you to submit an original paper to this Special Issue, which we wish to publish to spread your brilliant ideas throughout communication media. The aims and scope of this Special Issue include, but are not limited to:

- Advanced measurement sensors;
- Measurement and sensing applications;
- Manufacturing system;
- Applications of sensors in intelligent logistics equipment;
- Quality monitoring and control;
- Machine vision and applications;
- Methods of detection.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
