

Special Issue

Industrial Wireless Sensor Networks: Protocols and Applications

Message from the Guest Editors

With the help of technological advances and standardization activities, we are witnessing the growth of the wireless sensor network applications in many areas, such as home appliances, agriculture, transportation, and manufacturing. Recently, the adoption of WSNs in industrial areas has been increased due to matured technologies such as transceivers and protocols. This Special Issue focuses on the latest research, application, and adoption of wireless sensor networks in industrial fields from the perspective of protocols and applications, requiring high reliability and real-time packet delivery. In such a context, this Special Issue invites contributions in the following topics (though without being limited to them):

- Protocols for industrial wireless sensor networks;
- Wireless network control systems;
- Real-time communications in IWSN
- IWSN testbeds and applications such as smart factories;
- Edge and fog computing for IWSN;
- Any subjects relevant to IWSN.

Guest Editors

Dr. Seong-eun Yoo

School of Computer and Communication Engineering, Daegu University, Gyeongsan 712-714, Republic of Korea

Dr. Taehong Kim

School of Information and Communication Engineering, Chungbuk National University, Cheongju, Chungbuk 28644, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
