

Topical Collection

Instrument and Measurement

Message from the Collection Editor

Instrument and measurement represent the foundation to measure, acquire, and monitor physical phenomena in the electrical and electronics fields. At present, new technologies and solutions developed in recent times, especially for integrated and advanced sensors, are expected to give new perspectives and introducing new instruments in this leading field, requiring at the same time new characterization analyses in order to guarantee precise and accurate measurement. This Topical Collection aims to invite contributors to present their novel achievements in all areas of measurement and instrument science. The topics of interest include but are not limited to:

- Measurement fundamentals;
- Development of instruments and measurement systems;
- Signal processing techniques;
- DSP-based measurement systems;
- Sensors and smart sensors;
- Metrology fundamentals;
- New advanced techniques in measurement science;
- Artificial intelligence for instrumentation and measurement;
- Measurement instruments;
- Data processing and fusion algorithms;
- Distributed measurement systems;

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
