Innovative Life-Changing Using IoT Sensors

Message from the Guest Editors

This Special Issue calls for high-quality, up-to-date research related to innovative life-changing using IoT sensors. In particular, the Special Issue is going to showcase the most recent achievements, developments or services in the field. All submitted papers will be peer-reviewed and selected on the basis of both their quality and their relevance to the theme of this Special Issue. Keywords

- IoT sensor network
- Wireless sensor network with IoT
- Application using IoT
- Live demonstration of sensors and sensing technologies
- IoT communication technologies
- Human interaction with IoT
- AI and IoT
- E-health system and service with IoT

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
