

# Special Issue

## Intelligent Solutions for Cybersecurity

### Message from the Guest Editors

Cybersecurity for the past decades has gained massive attention from researchers and practitioners in both academia and industry. The rapid development of modern computing devices and IT infrastructures in different domains such as cloud computing, embedded systems, Internet-of-Things (IoT), edge computing, and blockchain has made cybersecurity even more challenging. Artificial intelligence and machine learning techniques have found their pathways in the field of cybersecurity to enhance the robustness of the computing systems and protect the users against emerging cyber-attacks. This Special Issue highlights the importance and challenges of using AI/ML in cybersecurity, and explores the recent technologies and solutions that focus on theory and/or application of machine learning and deep learning techniques in securing modern computing systems.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di  
Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
