

## Special Issue

# Intelligent Sensing Systems for Vehicle

### Message from the Guest Editors

We are proud to announce this Special Issue entitled “Intelligent Sensing Systems in Vehicles”. It is an attempt to include the most relevant work on state-of-the-art ISS, highlighting the higher level of integration that allows for the realization of complex applications satisfying real-time constraints in many challenging applications. Original papers are solicited in subjects including, but not limited to, the following: + Feature extraction and sensor fusion; + Autonomous vehicle technologies using sensors; + Distributed software architectures for ISS; + Application-specific hardware architectures for ISS; + Application of ISS for aerial, ground, and underwater vehicles.

### Guest Editors

Dr. Humberto Martinez Barbera

Information and communication engineering, School of computer science, University of Murcia, 30100 Murcia, Spain

Prof. Dr. David Herrero Pérez

Computational Mechanics and Scientific Computing Group, Technical University of Cartagena, 30202 Cartagena, Spain

### Deadline for manuscript submissions

closed (30 April 2021)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
