

Special Issue

Intelligent Sensors and Machine Learning

Message from the Guest Editors

This Special Issue focuses on the intelligent processing of sensor data via both edge and high-performance computing. With the advent of the Internet of Things, sensor data is generated at a rate of petabytes per day. Given this amount of data, intelligent processing of the data is needed near the sensor using edge computing. Also, because of the advances in high performance computing, large data sets can now be processed for training machine learning algorithms. Specifically, deep learning paradigms enable sophisticated transformation of the sensor data into usable information. This Special Issue invites papers that describe using machine learning techniques to process sensor data via both edge and high-performance computing.

Guest Editors

Prof. Dr. Richard J. Povinelli

Marquette University, Milwaukee, United States

Dr. Cristinel Ababei

Department of Electrical and Computer Engineering, Marquette University, Milwaukee, WI 53233, USA

Dr. Henry Medeiros

Department of Electrical & Computer Engineering, Marquette University, 1551 W. Wisconsin Ave., Milwaukee, WI 53233, USA

Deadline for manuscript submissions

closed (20 February 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
