

Special Issue

IoT Based-Smart Life

Message from the Guest Editor

This Special Issue on “IoT-Based Smart Life” seeks contributions on how to nurture and cultivate IoT technologies and applications for the Smart Life of the future. Papers are welcomed that deal with the technological innovations and applications as well as behavioral, social, and economic impacts of these innovations and applications. Case studies, empirical studies and qualitative studies are welcomed as well as design and development focused studies. **Keywords**

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
