

Special Issue

Technical Advances in Internet of Things for Smart Cities

Message from the Guest Editors

This Special Issue focuses on the latest research, application, and adoption of IoT networks in smart cities from the perspective of protocols and applications, requiring a different level of reliability and real-time packet delivery. In such a context, this Special Issue invites contributions in the following topics (though without being limited to them):

- Diverse IoT applications in smart cities;
- Protocols and technologies for connected cars and smart transportation;
- Testbeds and experimental results in smart cities;
- Localization and tracking;
- Data processing and analysis/machine learning and AI;
- Edge and fog computing in smart cities;
- IoT network protocols and standards.

Guest Editors

Dr. Seong-eun Yoo
Dr. Taehong Kim
Dr. Youngsoo Kim

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
