

Special Issue

Intelligent IoT Circuits and Systems

Message from the Guest Editors

The Internet of Things (IoT) is regarded as a very promising market in the next decade. However, batteries have become as a critical obstacle due to their limited operating time and frequent maintenance requirements. Energy harvesting and low-power techniques are proposed to relieve these problems, and self-powered sensor nodes are attracting increasing attention. Furthermore, the huge amount of data from sensors also poses a great challenge for bandwidth and processing capability of cloud technologies. Edge computing is also becoming widely used. Therefore, intelligent IoT circuits and systems have been explored from device, circuit, architecture, software, and system optimization aspects for various applications. We invite manuscripts for this Special Issue in all aspects pertinent to Intelligent IoT Circuits and Systems. Both reviews and original research articles are welcome. About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
