

Special Issue

IoT for eHealth

Message from the Guest Editors

We would like to encourage you to submit papers for the Special Issue *IoT for eHealth* of the Open Access Journal *Sensors*, which will include scientific and state-of-the-art work with applications in the Healthcare and Life Sciences domain. Papers should present original and innovative work that adds value to current solutions, considering the challenges of this highly-regulated industry. Indicative areas for the Special Issue are:

- IoT solutions for eHealth applications;
- Mobile sensing for healthcare systems;
- AI-based virtual coaching applications;
- Real world data collection;
- In vivo and in silico virtual clinical trials;
- Gamification concepts;
- IoT- and cybersecurity in eHealth systems;
- Blockchain approaches;
- Business model innovation.

We look forward receiving your contributions. Kind regards,

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
