

Special Issue

Internet of Things for Smart Community Solution II

Message from the Guest Editors

In this Special Issue, we invite papers on IoT technology solutions for community safety in personal and public scenarios. Therefore, we invite cutting-edge scientific researchers to draw a picture of the use of sensors data for decision-making aimed at providing intelligent community services. Topics of interest include but are not limited to:

- IoT technology
- IoT markets
- Internet of vehicles
- Blockchain tech for communities
- IoT big Data cloud and fog computing
- IoT and Decision-Making processes
- IoT and machine learning
- IoT and measurement frameworks
- IoT sensors data streaming
- IoT sensors supervised models
- IoT sensors non-supervised models
- IoT data processing architectures

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief
