Feature Papers in Communications Section 2025

Message from the Guest Editors

We are pleased to announce that the Communications Section is compiling a collection of papers submitted exclusively by Editorial Board Members (EBMs) of our section and outstanding scholars in this research field. The purpose of this Special Issue is to publish a set of papers that typify the very best insightful and influential original articles or reviews in which our section EBMs discuss key topics in the field. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collected into a printed book edition following the deadline, and they will be extensively promoted. We wish to take this opportunity to call on more excellent scholars to join the Communications Section so that we can achieve more milestones together.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
