

Special Issue

Emotion Recognition and Biometric Authentication with Contactless Sensing

Message from the Guest Editor

The forthcoming Special Issue in the *Sensors* journal is poised to explore the confluence between emotion recognition and biometric authentication by leveraging novel, contactless sensing technologies. Emotions, pivotal in shaping human interactions and responses, when accurately deciphered, offer boundless opportunities spanning mental health surveillance, enhanced human–machine rapport, and tailored services. Research topics that align with each purpose of emotion recognition and biometric authentication, without combining the two, can also be submitted to this Special Issue.

Guest Editor

Prof. Dr. Eui Chul Lee

Department of Intelligent Engineering Informatics for Human,
Sangmyung University, Seoul 03016, Republic of Korea

Deadline for manuscript submissions

closed (20 July 2025)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
