

Special Issue

Fiber Bragg Gratings-Based Sensors for Optical Measurement

Message from the Guest Editor

Fiber Bragg gratings (FBGs) and optical sensors have revolutionized the field of measurement and sensing technologies. *Sensors* invites researchers and practitioners to contribute to a Special Issue dedicated to the advancements and applications of FBGs and optical sensors in diverse domains. Scope and Topics of Interest: This Special Issue “Fiber Bragg Gratings-Based Sensors for Optical Measurement” invites original research articles, reviews, and short communications in the following areas (but not limited to):

- Design, fabrication, and characterization of FBGs;
- Novel FBG writing techniques and materials;
- FBG-based sensors for structural health monitoring;
- FBG sensors for temperature, strain, and displacement measurements;
- Optical sensing in harsh environments and extreme conditions;
- Hybrid and multiplexed FBG sensors for simultaneous measurements;
- Distributed optical fiber sensing systems;
- FBG-based sensors for biomedical and healthcare applications;
- FBG-based chemical and gas sensors;
- Real-time monitoring and data analysis techniques;
- Super-structured FBGs.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
