

## Special Issue

# Damage Assessment and Structural Health Monitoring of Composites

### Message from the Guest Editors

This Special Issue invites original research papers and review articles covering all aspects of the damage assessment (destructive and non-destructive) and structural health monitoring of composites, including fibrous and particulate composites. Both experimental and numerical studies are welcome. Manuscripts focusing on the application of damage assessment and health monitoring techniques in sustainable composites, as well as concise reviews of specific techniques used to manage the health condition of composites, are particularly encouraged. Potential topics include, but are not limited to:

- composites
- damage assessment
- structural health monitoring
- multifunctional composites

---

### Guest Editors

Dr. Bing Zhang

Dr. Mark Eaton

Prof. Dr. Yang Yang

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
