

## Special Issue

# Advances in Physical, Chemical, and Biosensors

### Message from the Guest Editor

The 10th Annual International Conference on Sensors and Electronic Instrumentation Advances (SEIA' 2024), <https://seia-conference.com>, is a forum for presentation, discussion, and exchange of information and latest research and development results in both theoretical and experimental research in sensors, transducers and their related fields, including artificial intelligence-based sensors and sensor systems. It brings together researchers, developers, and practitioners from diverse fields including international scientists and engineers from academia, research institutes, and companies to present and discuss the latest results in the field of sensors and measurements. The SEIA conference will focus on any significant breakthrough and innovation in sensors, electronics, measuring instrumentation and transducers engineering advances and their applications in the broadest sense. The main aim of the SEIA conference is to find solutions, which withstand the mentioned restraining factors.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
