

Special Issue

Low Power Sensors for Wireless Communication and Localization

Message from the Guest Editor

In wireless communication, localization, and sensing, energy awareness is becoming more and more important to enable sustainable long-term sustainable solutions. Low-power systems leverage innovation on sensor and actuator enhancements, improved communication protocols, and energy aware localization algorithms. In this issue, we welcome novel research concepts and experiments related to low-power sensors and wireless communication and localization.

Guest Editor

Prof. Dr. Maarten Weyn

Department of Electronics and Information and Communication Technologies, IDLab–Faculty of Applied Engineering, University of Antwerp–IMEC, Sint-Pietersvliet 7, 2000 Antwerp, Belgium

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
