

## Special Issue

# Advances in Laser Scanning and Photogrammetry for Sustainable Development

### Message from the Guest Editors

LiDAR and photogrammetry are currently two relevant technologies that contribute to both improving natural resources management and sustainable industrial development. We are interested in publishing your work on this subject, and we would like to invite you to submit articles regarding new applications of aerial and ground-based LiDAR and photogrammetry on these topics. Natural hazards and anthropic risks, pollution and atmospheric analysis, coastal and fluvial management and conservation, forest biometry and inventory, precision agriculture, quality control, intelligent transportation, smart cities, and energy efficiency are some of the topics covered by this Special Issue. Original research articles and articles providing a profound and critical review of the state of current knowledge are welcome. In addition to applications, we are also interested in new instruments, methods, and algorithms for data processing. Prof. Dr. Celestino Ordóñez

### Guest Editors

Prof. Dr. Celestino Ordóñez Galán

Department of Mining Exploitation and Prospecting, Universidad de Oviedo, Oviedo, Spain

Dr. Carlos Cabo

Universidad de Oviedo, Grupo de Investigación en Geomática y Computación Gráfica (Geograph), Oviedo, Spain

### Deadline for manuscript submissions

closed (31 August 2019)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
