State-of-the-Art Sensors Technologies in Portugal

Message from the Guest Editors

This Special Issue aims to present a thorough synopsis of current developments in sensor technology in Portugal. It will include reviews and research articles that provide information on new Portuguese sensor applications and developments. Topics of interest include, but are not limited to:

- Biosensors;
- Remote sensors;
- Smart/intelligent sensors;
- Sensor devices;
- Sensor technology and application;
- Human-computer interaction;
- Sensing systems;
- Localization and object tracking;
- Sensing and imaging;
- Vision/camera-based sensors;
- Machine/deep learning and artificial intelligence in sensing and imaging;
- 3D sensing;
- Wearable sensors, devices, and electronics.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
