

Special Issue

Microwave Devices and Wireless Sensors

Message from the Guest Editor

It's my great pleasure to announce this Special Issue on "Microwave Devices and Wireless Sensors". The recent advancements in microwave technologies have made wireless sensors an assessed technology that can be widely used for different practical applications. The key advantages of modern microwave systems are the low cost, strong miniaturisation and the capability of transmitting information with an high bandwidth and a long operative range. Thanks to these characteristics, wireless sensors based on microwave frequency bands can be used for a large class of practical problems. [...] For more information, please visit https://www.mdpi.com/journal/sensors/special_issues/MDWS.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
