Selected Papers from the 18th International Conference on Mechatronics-Mechatronika 2018

Message from the Guest Editors

The 18th International Conference on Mechatronics-Mechatronika 2018 (<https://mechatronika.fel.cvut.cz/>) will be held during December 5–7, 2018, Brno, Czech Republic. The program will consist of contributed papers, there will be no more than two parallel sessions, depending upon topic grouping. Themes will be drawn from, but not limited to the following: Modeling and Simulation, Robotics, Actuators and Control, Power Electronics, Information and Communication Technologies, Industrial Applications, Energy Harvesting, Sensors, Measurement and Diagnostics, Military Technologies, Biomechatronics, Industry 4.0, and Education. Authors of the selected papers from the conference are invited to submit the extended versions of their original papers and contributions.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
