

Special Issue

Micro/Nano-Structured Devices for Sensors and Transducers

Message from the Guest Editor

We are pleased to invite you to contribute to this Special Issue of *Sensors* entitled “Micro/Nanostructured Devices for Sensors and Transducers”. The scope of this Special Issue covers a variety of sensors, transducers, transmitters, receivers, and energy converters based on micro/nanostructures and particularly invites interdisciplinary works to develop novel micro/nanostructured devices for sensors and transducers which are operated in optical, electrical, piezoelectric, acoustic, ultrasonic, or biomedical ways. This issue seeks to showcase research papers, short communications, and review papers, including the most up-to-date results and information in the above research fields. We strongly encourage your contribution to this Special Issue with new concepts and methodologies, simulation, characterization, fabrication, instrumentation, and device applications.

Guest Editor

Prof. Dr. Hyoung Won Baac

School of Electronic and Electrical Engineering, Sungkyunkwan University, Suwon 16419, Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
