

Special Issue

Micro-Optical Sensors

Message from the Guest Editor

The scope of this special issue is to bring together review articles and papers of original works in the field of micro-optical resonator based sensors. Research of particular interest includes, but is not limited to, sensors for biological and chemical sensing, mechanical sensing, as well as sensors for defense and homeland security. I look forward to receiving your contribution.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
