## Microwave and RF Biosensors

### Message from the Guest Editors

This Special Issue will focus on noble results in microwave and RF biosensors, biosensing device application, biosensing platforms, etc. Microwave and RF biosensors and bio devices of biological solutions, which have been investigated for several decades though different biosensing applications, are crucial to future biosensor research. Scopes are related to experimental and theoretical research in microwave and RF biosensors, microwave and RF biosensor devices, microwave passive and active biosensor devices, microwave and RF biosensor platforms, microwave and RF biosensing applications, hybrid RFIC applications for biosensors, and MMIC applications for biosensor.
