

Special Issue

Monitoring, Security and Privacy in IoT Emerging Technologies

Message from the Guest Editors

The Internet is evolving from a communication platform for conventional IT appliances into the Internet of Things (IoT), increasingly interconnecting many assorted devices and sensors. The topics in this Special Issue will collect contributions include but are not limited to the following:

- Secure protocols for IoT devices
- Case studies of malware analysis in IoT environments
- Clouds, IoT, Edge, and Fog monitoring and forensics
- Security diagnosis tools for IoT devices
- Trust frameworks and secure/private collaboration mechanisms for IoT environments
- Secure management and self-healing for IoT environments
- Operative systems security for IoT devices
- Threat and vulnerability detection in IoT, Cloud, Edge, and Fog environments
- Anomaly detection and prevention mechanisms in IoT networks
- Deep Learning and AI for security
- Testbeds and experimental facilities for IoT security analysis and research
- Security and privacy solutions tailored to specific
- Secure Methodologies for emerging technologies
- Secure elements (TPM, TEE, SGX, ARM, etc.) for IoT, Edge, and Fog
- Human aspects in IoT cyber-security
- Experimental, observational, and case study results

Guest Editors

Dr. Antonio Muñoz
Prof. Dr. Carsten Rudolph
Dr. David Manz

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di
Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
