

## Special Issue

# Monitoring of Security Properties in IoT and Emerging Technologies

### Message from the Guest Editors

The recent advances in technologies such as cloud computing, IoT, edge computing, and fog computing are transforming the way in which large-scale computations are performed. This has introduced improvements in terms of scalability for clouds, and in terms of permanent connection and user-centric computation for IoT, edge, and pervasive computing. However, the incursion of these technologies entails the introduction of new challenges regarding security and privacy.

Monitoring of security properties in each of these technologies implies tailoring solutions according to particular features of baseline technology. The Issue will focus on high-quality research and state-of-the-art research paradigms on monitoring security properties in cloud, IoT, edge, and fog computing. Subject Coverage Suitable topics include but are not limited to the following:

- Monitoring of security properties in clouds
- Monitoring of security properties in IoT
- Monitoring of security properties in edge computing
- Monitoring of security properties in fog
- Monitoring languages
- Monitoring Infrastructures

---

### Guest Editors

Dr. Antonio Muñoz  
Prof. Dr. Eduardo B. Fernandez  
Prof. Dr. Haris Mouratidis

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di  
Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
