# Selected Papers from the 2020 IMEKO TC-4 International Conference on Metrology for Archaeology and Cultural Heritage

### Message from the Guest Editors

The 2020 IMEKO TC-4 International Conference on Metrology for Archaeology and Cultural Heritage (MetroArcheo 2020, <http://www.metroarcho.com/>) brings together researchers and operators in the enhancement, characterization, and preservation of archaeological and cultural heritage with the main objective of discussing production, interpretation, and reliability of measurements and data. The conference is conceived to foster exchanges of ideas and information, create collaborative networks, and update innovations on “measurements” suitable for cultural heritage for archaeologists, conservators, and scientists.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
