

Special Issue

Intelligence, Security, Trust and Privacy Advances in IoT, Bigdata and 5G Networks (3rd Edition)

Message from the Guest Editors

This Special Issue organizes the latest intelligent data processing strategies, trust management, privacy protection techniques, and attack and defense methods for the IoT, Blockchain, and 5G ubiquitous networks. Technical contribution papers, and review papers are welcome. The proposed topics include (but are not limited to) the following:

- Intelligent data processing, algorithms, and models;
- Security, trust, and privacy in IoT, big data, and 5G networks;
- Multimedia networking, communication, and security;
- Data fusion of heterogeneous sensor data and multi-mode data;
- Secure machine learning and deep learning;
- Privacy computing methods, models, and algorithms;
- Security, trust, and privacy in wireless sensor networks and edge/fog computing;
- Federated learning, reinforcement learning, and meta learning;
- Unmanned aerial vehicle networking, communication, and security;
- Intelligent transportation systems, communication, and security;
- Connected healthcare technology and applications;
- Security, trust, and privacy in smart grids and smart energy;
- Trusted execution environments and hardware and chip security;
- Intelligent processing and security in connected autonomous vehicles.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
