

## Special Issue

# Editorial Board Members' Collection Series: Electrochemical Sensors

### Message from the Guest Editors

Electrochemical sensors have been widely used for environmental, chemical, and biological sensing. As we transition into remote health, addressing health disparities and non-contact monitoring, electrochemical sensors will continue to play a pivotal role. In this collection, we seek to feature novel and emerging work that focuses on designing electrochemical sensors with a view on diversity, equity, and inclusion. The approach to electrochemical sensors can be multidisciplinary, from novel material integration with a low cost of ownership to applications for rare diseases to electrochemical sensors that make quality of life more equitable around the globe. This collection seeks to look at electrochemical sensors through addressing Diversity, Equity, and Inclusion with Electrochemical Sensors.

---

### Guest Editors

Prof. Dr. Spyridon Kintzios

Laboratory of Cell Technology, Faculty of Biotechnology, Agricultural University of Athens, Athens, Greece

Prof. Dr. Shalini Prasad

Cecil and Ida A.Green Professor in Systems Biology, Department of Bioengineering, University of Texas, Dallas, Richardson, TX 75080, USA

---

### Deadline for manuscript submissions

closed (30 July 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
