

## Special Issue

# Audio, Image, and Multimodal Sensing Techniques

### Message from the Guest Editor

This Special Issue of *Sensors* is focused on original research involving the use of various audio and image sensing devices, both simultaneously and separately. The goal is to collect a diverse set of papers that span a wide range of analyses and possible applications. Specifically, the interest is in papers that address the use of environment-based sensors, i.e., placed on the ground, cased in the air or water, etc., and the development of software utilizing the output of these sensors. Papers focused on the construction of optimized sensors are also welcomed. The Special Issue will cover, but is not limited to, the following areas:

- digital signal processing
- audio signal analysis
- image analysis
- pattern recognition
- audio sensors
- image sensors
- multimodal and single mode sensing
- artificial intelligence
- sensor applications

For more information on the Special Issue, please visit the website at: <https://www.mdpi.com/si/133100>  
Please contact the or the Assistant Editor at ([ava.jiang@mdpi.com](mailto:ava.jiang@mdpi.com)) for any queries.

---

### Guest Editor

Dr. Alicja Wiczorkowska  
Multimedia Department, Polish-Japanese Academy of Information Technology, Warsaw, Poland

---

### Deadline for manuscript submissions

closed (10 May 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
