

## Special Issue

# Optical Imaging, Optical Sensing and Devices

### Message from the Guest Editors

This Special Issue will highlight the latest research advances in optical imaging, optical sensing and devices, emphasizing the integration of opto-electric measurement and computational processing; theoretical to experimental demonstration; and various applications of the latest advances in optical imaging, optical sensing and devices. This Special Issue will bring together contributions by outstanding international leaders, researchers, scientists and engineers from a broad range of interdisciplinary fields to present their work in the science, technology and applications of optical imaging, optical sensing and devices. This Special Issue will focus on the current state-of-the-art of optical imaging, sensing and devices, covering recent technological developments in new imaging and sensing principles and systems and the emerging applications. Original research papers and review articles describing the current state-of-the-art in this research field are welcome. For more details, please visit [here](#).

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
