

Special Issue

Recent Trends of Optical Waveguide and Biophotonic Sensors

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview on the “Recent Trends of Optical Waveguide and Biophotonic Sensors”. Research articles which will provide a consolidated, up-to-date perspective in this area are invited. The Special Issue will publish full research, review, and other highly rated manuscripts addressing the above aim. Potential topics include, but are not limited to, the following:

- Novel optical waveguide for biophotonic sensors;
- Optical waveguide sensors;
- Biophotobics sensors;
- Quatum sensors for biophotonics;
- Advanced manufacturing applications for biosensors;
- Biomedical and human assistive applications.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
