Advances in Gas Sensing Technologies for Disease Diagnosis Application

Message from the Guest Editor

This Special Issue on “Advances in Gas sensing Technologies for Disease Diagnosis Application” aims at conquering the latest technological advancements in gas sensing methodologies, novel approaches, and real-time applications in disease diagnosis, monitoring, and treatment. This Special Issue covers topics including, but not limited to, chemical, optical, electronic nose, physical, and catalytic sensors for the detection and analysis of disease biomarkers for disease diagnosis, monitoring, and treatment. Both original research papers and review articles are welcome.

Guest Editor

Dr. Tesfalem Welearegay

The Ångström Laboratory, Division of Solid-State Physics, Department of Materials Science and Engineering, Uppsala University, 75121 Uppsala, Sweden

Deadline for manuscript submissions

15 October 2025

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
