# Feature Review Papers in Sensors and Robotics

## Message from the Guest Editors

We are pleased to announce this forthcoming Special Issue, entitled "Feature Review Papers in Sensors and Robotics", which aims to assemble authoritative surveys that span the rich landscape of sensing technologies and their integration within robotic systems. In recent vears, advances in materials, computation, and algorithms have transformed sensors from mere data collectors into active enablers of autonomy, perception, and interaction. This Special Issue aims to highlight critical developments, synthesize state-of-the-art methodologies, and identify the most pressing challenges and opportunities for future research.
