Special Issue

Flexible Energy Converter and Sensor

Message from the Guest Editors

As the keystone of Internet of Things systems and wearable electronic applications, flexible energy converters and sensors play a leading role in upgrades to energy converters and sensors in the field, including health monitoring, medical care, environmental protection, infrastructure monitoring, and security. This Special Issue aims to discuss the design, preparation, testing methods, failure mechanism, and application of flexible energy converters and sensors. The goal is to help all potential readers to develop a deeper understanding of this field.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
