Special Issue

Advances in Security for Emerging Intelligent Systems

Message from the Guest Editors

This Special Issue aims to address the urgent need for robust security measures to protect emerging intelligent systems from evolving threats by showcasing the latest research and innovative solutions to enhance their security and resilience against potential cyber threats. We invite researchers and practitioners to contribute their latest findings and insights, fostering a deeper understanding and development of security and privacy measures for these systems. **Keywords**

- intelligent systems security
- cyber threat resilience
- AI and ML in cybersecurity
- privacy-preserving technology
- blockchain and IoT security

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
