

## Special Issue

# Sensors Technology for Sports Biomechanics Applications

### Message from the Guest Editors

Technology is increasingly present in the world of sports and performance. Systems designed for industry find their application in sports and biomechanics. Wearable sensors are advancing rapidly, and scientists are finding optimal solutions to monitor athletes in real situations. It is necessary to validate systems for these uses in applied studies. Additionally, reviewing technological advances in sports biomechanics is necessary due to the significant increase in publications related to these systems. This Special Issue seeks papers committed to developing the integration of sensors in sports biomechanics applications. We are looking for original and review papers centered on the following topics, but not limited to them:

- Validity and reliability of wearable devices for sport sciences;
- Applications of technology for sport assessment;
- Biomechanics analysis of sports movements with sensors;
- Novel uses of sensors in sports performance;
- State of the art of wearable devices for biomechanics applications.

---

### Guest Editors

Dr. Ana Vanessa Bataller-Cervero

Dr. César Berzosa Sánchez

Dr. Juan Rabal-Pelay

Prof. Dr. Eduardo Piedrafita

---

### Deadline for manuscript submissions

25 December 2025

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
