

Special Issue

AI for Smart Home Automation: 2nd Edition

Message from the Guest Editor

In recent years, the home automation industry has evolved in tandem with the development of the information society. The development of artificial intelligence has favored the emergence of new paradigms, with beneficial effects on various sectors of automation, including home automation, which has become increasingly smart. This Special Issue aims to collect innovative contributions in the field of artificial intelligence applied to home automation, with the aim of encouraging the development of an increasingly intelligent, efficient, and energy-conscious home.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di
Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
