

## Special Issue

# Integrated Sensing and Communication

### Message from the Guest Editor

The ultimate goal of ISAC is to integrate and unify communication and radio sensing operations toward a mutually beneficial relationship. The benefits of ISAC can be divided into two categories: 1) integration gain to use spectrum resources efficiently, and 2) coordination gain to balance the mutual functions. It is expected that ISAC will have broad prospective applications as the foundation of future 6G wireless networks. This Special Issue aims to attract novel and solid contributions to ISAC. Contributions are solicited on, but not necessarily limited to, the following topics:

- Fundamental limits and performance analysis of ISAC;
- Advanced waveform, channel coding, and modulation designs for ISAC;
- Novel multiple access designs for ISAC;
- Machine learning aided ISAC;
- MIMO/Massive-MIMO-assisted ISAC;
- ISAC for emerging physical-layer technologies;
- Implementation of ISAC in 6G applications, e.g., SAGINs, VR, AR.

### Guest Editor

Dr. Raveendra K. Rao

Department of Electrical and Computer Engineering, Western University, London, ON N6A5B9, Canada

### Deadline for manuscript submissions

closed (20 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
