

## Special Issue

# Sensors and Sensing in Water Quality Assessment and Monitoring

### Message from the Guest Editors

In this Special Issue, “Sensors and Sensing of Water Quality Assessment and Monitoring”, we invite contributions that demonstrate the use of sensors and remote sensing technologies to assess the physical, chemical and biological indicators of water quality. Contributions that highlight the use of optical and microwave remote sensing, sensors (handheld, air and space borne) and new applications on algorithm development, evaluation and validation are encouraged.  
Dr. Essayas K. Ayana

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
