

## Special Issue

# Recent Advances in Ion Sensors

### Message from the Guest Editors

Ion sensors continue to underpin research aiming to address the complex challenges we face in many aspects of our daily lives. From personalized medicine to precision agriculture, and safety and security, ion sensors play an important role in the development of diagnostic, treatment and the sustainable management of resources. We would like to invite you to share your innovations relevant to ion sensors as mentioned above. We would like to read papers on topics such as, but not limited to: electrochemical and optical sensors; methodologies for the application of sensors for in situ analysis; and the integration of ion sensors with electronic devices in, for example, wireless sensor networks or other smart sensor configurations. Moreover, we would welcome papers describing the utilization of statistical processing enabling simpler data processing, thus resulting in, for example, the better visualization of sensor data. ## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
