

## Special Issue

# Rehabilitation Robots and Sensors

### Message from the Guest Editors

Rehabilitation using high technology digital devices is a leading-edge advance in rehabilitation medicine. Using robot-assisted fatigue-free training, we can provide optimal task-specific, goal-oriented, and intense motor training. Robots can also be used for motor assistance and compensate for the impaired function as a type of orthosis or assistive device. Digital sensors can assess the function of the patients more quantitatively as well. It is still hard to satisfy both functionality and adoptability for innovative technologies, including rehabilitation robotics and sensor technologies. Many engineers and clinicians are working hard to push it to a feasible and affordable level. The scope of this Special Issue will cover innovative high technologies concerning robots and sensors that effectively complement standard rehabilitation.

### Guest Editors

Prof. Dr. Dongwook Rha

Yonsei University College of Medicine, Seoul 03722, Korea

Dr. Kyoungchul Kong

Mechanical Engineering, Korea Advanced Institute of Science and Technology (KAIST), Daejeon, Korea

### Deadline for manuscript submissions

closed (30 April 2022)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
