

Special Issue

Sensors Applications in Air Quality Monitoring

Message from the Guest Editors

Dear Dr. Colleagues, Several years ago, Melissa Lunden and I organized a special issue in Sensors, an MDPI journal entitled "*Air Pollution Sensors: A New Class of Tools to Measure Air Quality*". [Eighteen papers were published in that issue](#). We cordially invite you, our colleagues that we have worked within this space or published in one of our other special issues to submit to this second Special Issue in Sensors and continue expanding this topic given the exponential further development and use of air pollution sensors., This second special issue is entitled "Sensors Applications in Air Quality Monitoring" and below we outline the broader scope expanding from the initial issue. Knowing your research well, we believe that you could make an important contribution. For further reading, please follow the link to the Special Issue Website at:

https://www.mdpi.com/journal/sensors/special_issues/SAAQM

Guest Editors

Dr. Paul A. Solomon

Senior Research Scientist, Aclima Inc., San Francisco, CA 94111, USA

Dr. Melissa M. Lunden

Chief Scientist, Aclima Inc., San Francisco, CA 94111, USA

Dr. Caroline L. Parworth

Scientist, Aclima Inc., San Francisco, CA 94111, USA

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
