

Special Issue

Sensors and Applications in Computer Science and Intelligent Systems

Message from the Guest Editor

More interests on AI and big data have made tremendously increasing needs on sensors and data. Sensors and data are the most basic fundamentals to design an intelligent system. It is a common procedure for futuristic intelligent systems in computer science that require some intelligent information processing techniques and big data based on various types of sensors here and there including smart sensors to get meaningful information from various environmental information. IoT including robotic systems, Security and healthcare applications are some of the most representative applications for AI and big data based on sensors and data. This special issue aims to publish original technical papers and review papers on recent technologies that focus on sensors and various applications in computer science and intelligent systems.

Guest Editor

Prof. Dr. Jin-Woo Jung

Department of Computer Science and Engineering, Dongguk University, Seoul 04620, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
