

## Special Issue

# State-of-the-Art Sensors Technology in China 2020–2021

### Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of state-of-the-art of sensor technology in China. We invite research papers that will consolidate our understanding in this area. The Special Issue will publish full Research Articles and Systematic Reviews. Potential topics include, but are not limited to, the following research areas:

- Sensor design, model, and simulation
- Material properties analysis and processing technology for sensors
- Signal processing electronics for sensors
- Application specific integrated circuit design for sensors
- Control methods for sensors
- System design and implement for sensor applications

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
